Hi Vince,

I spoke with the TCEQ PM for the Schlumberger site this morning. He stated that he did not have the report or unvalidated data from the 2010 sampling period. He stated that he thought that they actually sampled in February and not January. He thought he would get the report in a couple of months because they combine the data from February and August 2010. Have you been able to speak with Arcadis about the data. I could see if we can have the TCEQ PM for the Schlumberger site request analytical data? I'll check if you would like me, too.

Dani

Dani,

do you have a copy of the January 2010 Schlumberger report?
